### Who We Are

Amateur Radio Euless is an association of members who have a common interest in the avocation of Amateur Radio. Our members have diverse interests. You will find among our ranks those who enjoy building their own radios and those who enjoy contacting other Amateurs around the world, those who perform community service and those who simply enjoy the chance to meet new people over the air. Amateur Radio is a worldwide service that can be an enriching, educational, lifelong activity. The club is affiliated with the American Radio Relay League (ARRL). ARRL affiliation gives the club additional benefits through the ARRL.

### What We Do

Our club holds monthly meetings on the second Wednesday of each month in the Euless Police Department's Emergency Operations Center (EOC). These meetings are an opportunity for us to learn about the latest developments in Amateur Radio, plan and organize club events, and to share information. We have an informative presentation at each meeting on a wide variety of topics related to Amateur Radio communications.

Amateur Radio is a licensed radio service. To earn a license requires passing examinations regulated by the Federal Communications Commission. The club is not just for people who are already licensed. The members and officers of Amateur Radio Euless are excited to share our enjoyable and interesting avocation with anyone who is curious about Amateur Radio and communications. We're also interested in helping people earn their own Amateur Radio license.

### Club Meetings

ARE meetings are on the 2nd Wednesday of each month at 7:00 pm. The meetings are held at the Euless Police Department EOC office at 1102 W. Euless Blvd., Euless, TX. For more information please send an e-mail to [info@w5eul.com](mailto:info@w5eul.com)

The relationship of the ARE Radio club to the EOC is a volunteer effort. The EOC operates during emergencies where one agency (fire or police, for example) is not able to handle the disaster alone, and it is a place where city planners and heads of police, fire, and other agencies get together in one location to deal with it. Amateur Radio

Operators from the club have a location in the EOC to handle emergency communications should the standard systems go down, and to provide backup communication services when needed.

The R.A.C.E.S. members of the club also provide trained communications personnel (amateur radio operators) to assist the National Weather Service, and other similar community agencies, in providing communications support for sporting events and a variety of public service events. During disaster events ARE and RACES radio operators assist local, county, and state public service organizations by providing vital additional emergency communications capacity.
